Лабораторная работа №3 «РЕАЛИЗАЦИЯ СЕРВЕРНОЙ ЧАСТИ ПРИЛОЖЕНИЯ СРЕДСТВАМИ DJANGO И DJANGORESTFRAMEWORK»

по дисциплине

«Web-программирование»

Выполнил:

студент III курса ФИКТ

группы <u>К33402</u>

Ф.И.О. Кондрашов Егор Юрьевич

Проверил:

Говоров А. И.

Санкт-Петербург

Цель работы: овладеть практическими навыками и умениями реализации web-сервисов средствами Django.

Выполнение работы:

Recycle Starter - сервис для сбора макулатуры и её дальнейшей переработки, разработанный в рамках конкурса ITMO Future.

Доступен по адресу: https://recycle.itmo.ru/

Исходный код бэкенда: https://github.com/e-kondr01/rcs back

Ниже приведена часть кода из приложения containers app.
